WHAT MAKES COMMUNITY CHRISTIAN ACADEMY DIFFERENT?

THE FACTS

Community Christian Academy, a ministry of Community Bible Baptist Church, was founded in 2009. Its purpose was to provide a first-class, Christ-centered education for its member's children. However, after several years, the school opened its enrollment in the elementary to our community and in the 7th - 12th grade to student of other like-minded Bible-believing churches in the area.

Our school implements the traditional classroom setting, where students are taught directly through a time-tested hands-on approach by qualified teachers. Our faculty, of whom most have likewise been trained in Christian schools themselves, have exhibited a strong desire to help and influence each young student to reach his potential for Christ, both academically and spiritually.

Our school uses the Bob Jones curriculum. It is a traditionally-based approach to education with the Bible integrated throughout all subject matters and textbooks. It is considered by many to be one of the best curriculums in the area of Christian education. We also us Saxon Math for all high school grades.

Our school is located within the building of Community Bible Baptist Church, utilizing and maximizing the space that serves as Sunday school rooms on Sundays and as classrooms during the remainder of the week.

Our school provides extra-curricular opportunities for our students to become involved in school plays, sports, music, fine arts, and other areas.

Our school is a member of the Florida Christian Activities Association.

THE PHILOSOPHY

Community Christian Academy is different from most schools, in that, it involves more than just academics. We desire to train balanced young people who surrender their lives to God's will, we believe that proper relationships and Christ-honoring activities should also be established along with sound academics.
